Mr. Jeff Ruch
Executive Director
Public Employees for Environmental Responsibility
2000 P Street NW, Suite 240
Washington, DC 20036

This letter is an interim response to your letter, dated May 21, 2014 and received by GSA on May 23, 2014, wherein you questioned the validity of the National Environmental Policy Act (NEPA) analysis prepared in November 2012 by GSA concerning its involvement in the Peace Bridge Plaza, Buffalo, New York.

We have determined that additional time is necessary to respond to your inquiry beyond the 60-day window set forth in GSA's Information Quality Guidelines found at <http://www.gsa.gov/portal/category/21547>.

In particular, the complexity of your allegations require more time to respond. Absent a need for a further extension, we are extending our response time by an additional 60 days with our intent being to provide a final response by September 26, 2014.
